- Invasive manipulations in pain therapy: view from inside and outside
WELCOME MESSAGE
“when suffer from pain, assess understand take action”

Dear Colleagues,

On behalf of the Organizing Committee, I am pleased to invite you to Pain in Baltic conference, to be held in Riga, Latvia, on November 27–28, 2015.

Riga is a lively city, with superb conference and hotel facilities that will guarantee you a most pleasant stay. It will provide the perfect setting for you to meet with colleagues, learn about effective pain management, and have the opportunity to enjoy historic places, museums, restaurants, and nightlife.

The certified scientific program promises to be extremely attractive, offering a state-of-the-art update in the field of pharmacologic and nonpharmacologic pain management presented by world-renowned experts. The educational program includes comprehensive reviews of significant areas, including pain mechanisms and novel treatments, current trends in pharmacotherapy, biobehavioral aspects of pain management, and procedural techniques for effective pain control.

Please do not hesitate to contact us should you require any further information or assistance,

Best regards,

Professor Inara Logina
President of LASP
Conference President
